Summary

Hey, I am OINDIL GOLDER. I am an aspiring MERN stack developer and Coder. I Have worked on the latest web tools that I have mentioned below. I'm a fast learner and I can acquire new technologies and tools very fast. Also, I have much experience on many programming languages. I am improving my skills as days pass.

Skills

HTML • CSS • JavaScript • React JS • Express JS • MongoDB • JAVA • C • GitHub • Git

Projects

- **Weather.dev** (Dec 5th - present) – Weather.dev is a weather-based website that is based on **HTML, CSS & JS**. It will be minimalistic and visually stunning as well as responsive.
Github: <https://github.com/OINDIL/weather.dev>
Link: <https://weatheroindil.netlify.app/>
- **Text-Formatter & Password Generator** (Jan 2023 – Feb 2023) – A simple text manipulation app that also can generate secure passwords. It has some special features such as changing a word or sentence to uppercase and lowercase and generating secure passwords that can be copied directly from the website. Also, it can make alternating case text which looks cool.
Technologies: ReactJS • CSS • Bootstrap 5
